

Google Meets – Live Streaming

Changing the background before the class

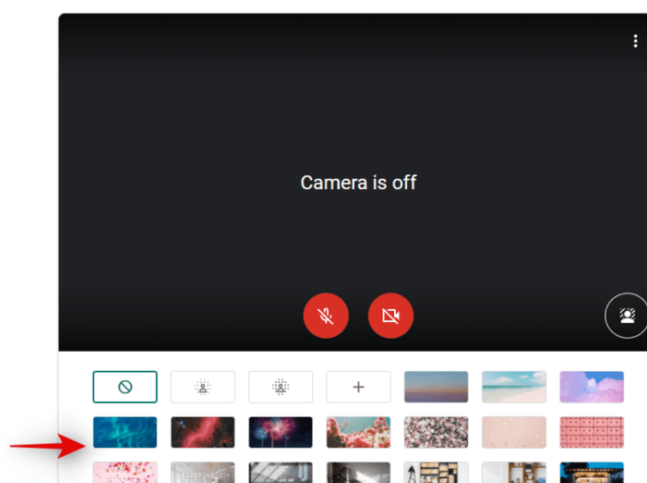

1. Open Google Classroom and follow the link in your Classroom or use the link in your e-mail.

2. Click on the 'Background' icon in your video preview once you are on the waiting screen.

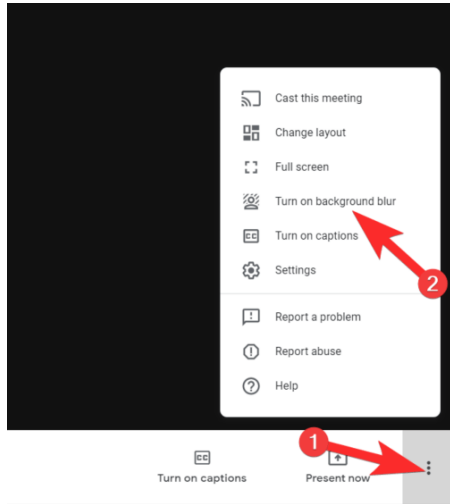

3. Click and choose the photo that you wish to set as your virtual background. If you wish to select a custom image, then click '+' and add one from your local storage.

Changing your background during a class

1. Click on the '3-dot' icon in the bottom right corner of your screen during a meeting.

Now select 'Change background'.

You will now see a list of previously added backgrounds in the right sidebar. Click and select the one you wish to use. You can also use a custom image by clicking on the '+' icon and then selecting one from your local storage.
